

All Star I - 2021

Registrar's Report, Susan O'Loughlin

Registration for the 2021 All Star I Conference was delayed to March 10, 2021, due to the uncertainties surrounding the COVID-19 pandemic. As part of their COVID-19 safety protocols, Star Island Corporation limited weekly attendance to 170 conferees.

Registrations were slow during the 2021 registration period with a total of 166 registrations. There were 13 partial week conferees and 28 cancellations. Ultimately, 138 people attended All Star I; well below the 170-conferee limit.

In 2021, registered conferee ages ranged from 1 to 89 years. The percent of children 17 and under was lower than past years. The percent of conferees 18-39 years old was slightly higher (the increase attributable to single, young adult conferees), and the 40-59 and 60+ age groups were consistent with prior years.

This year there were 19 conferees who were new to All Star I, including 9 conferees who were also new to Star Island.

There were many last-minute changes this year: late applications, people who were on-island and wanted to extend their stays, as well as early departures. Fortunately, our low numbers allowed us greater flexibility and all last-minute requests were honored.
